

## WALAN Checklist

We've put together a checklist of things you should check before coming to our events. Should you have any questions, please feel free to contact us via our website.

- Make sure your anti-virus software has the latest definitions and you have performed a full **virus scan** before coming to the event.
- Disable **Internet Connection Sharing** or any equivalent software.
- Make sure that you have downloaded and installed any available **security updates** for your operating system.
- Ensure you do not bring speakers to the event. All patrons are required to wear **headphones**.
- Make a note of the **email address** you used to register for the event, this is the primary piece of information we will use to sign you in when you arrive.
- If you intend on playing **Counter-Strike** or any other **Steam** game at the event, make sure you have loaded Steam and downloaded all updates. You must also connect and join to an internet server for each Steam game to start working in Offline mode.
- Remove any **shared folders** and/or printers from your computer.
- Collect proof of purchase for any game competition you wish to compete in, where appropriate. Winners of competitions will be required to provide proof of ownership before collecting their prizes.
- Check that any power boards you intend on bringing do not have surge protection. These interfere with our power gear and are prohibited.
- Get ready for a fun weekend!
